A round robin is a type of sports bet that breaks down a larger group of bet selections into a series of smaller parlays.

It typically covers every combination of outcomes possible, hence why some consider it an effective hedging strategy for sports betting.

Most sportsbooks will automatically generate round robins based on your selections, saving you the hassle of having to create dozens of parlays manually.

Let's say you think the Lakers, Celtics, and Knicks will all win and choose

to make a round robin from these picks
