Why You Need Amazon Customer Reviews

73% of consumers say positive customer reviews make them trust a business more

Convince consumers to buy your product over alternatives

Serve as word of mouth recommendations

Studies have shown that word of mouth is the most powerful marketing tool even

in an online age, when a fellow human being tells us about something great, we

listen with open ears. Although our lives are vastly different than our neanderthal

ancestors, we aren't as far removed as we think. We are still programmed

to make choices based on the actions of others. There is safety in numbers with

the herd mentality, so when we see a lot of people recommending an item and say

ing they HAVE to have it, we tend to feel likewise.

When it Comes to Getting Amazon Reviews, the More the Merrier

Tell them that you're hoping for an honest review of the product, although no

obligation is required. Many won't respond to your email, and probably only

around half will review the product you send, but that's the name of the game.

Yes, it's risky. But if your product is awesome and you know it can earn

great reviews, a few 5 star ratings from these top Amazon reviewers will be HUGE.

Amazon is doing their best to combat fake reviews, but honestly, they aren't

doing a ton. In a way we're dealing with the same black vs. white hat problem

of whether or not you should buy Twitter followers, which is a tremendously

controversial topic.
